WORK EXPERIENCE

Production Leader – McDonald's (2014 - Present)

- Assembling sandwiches in a timely manner based upon customer's order
- Cooking meat in accordance with company FDA regulations
- Cleaning and sanitizing work area to meet company standards
- Managing time wisely while working

SSLM (Senior Super Lab Manager) and Lab Consultant – UNCG ITS

- Solving computer/software problems
- Cleaning and sanitizing the computers
- Checking lab to see if anything is out of the ordinary
- Refilling printers with papers, before and after shift
- Answering client's questions about technical/general issues they're experiencing
- Learning different types of software
- Closing labs at a certain time

Entry Level Programmer (Internship) – Logiksavvy Solutions (June 2018 – July 2018)

The internship program at Logiksavvy Solutions focuses on training their interns to integrate data with software, such as Hadoop, MongoDB, Cognos, MySQL, Python, etc., and get them exposed to a enterprise business. Interns would have a chance to get certified badges with IBM through training so they would have a high-level understanding of the type of software that enterprise businesses use.
